

AUGUST IS

**ITCHY PET**  
awareness month

**WE'RE DEDICATING  
THE TAIL END OF  
SUMMER TO ITCHY  
PET AWARENESS**

**ITCH CAN BE CAUSED BY:**

- flea allergy
- environmental indoor and outdoor allergens (atopic dermatitis)
- food allergy
- contact allergy
- parasites, such as fleas and mites
- staph or yeast infections

**SIGNS OF ITCH INCLUDE:**

- scratching
- biting
- chewing
- rubbing
- scooting
- frequent licking
- recurrent ear problems
- hair loss
- body odor
- skin changes

**SUMMER IS FOR FUN IN THE SUN,  
BUT TALK TO US ABOUT ITCH BEFORE IT'S DONE**
